

Key

- Road Closure
- Proposed diversion route
- Existing one way Traffic Order will be suspended and 2 way traffic will be maintained with the help of 4 way traffic signals.

- Notes:**
1. Traffic Management layouts and procedures shall be based on the recommendations of Chapter 8 of the Traffic Signs Manual 2009 published by Her Majesty's Stationary Office. This drawing is a guide only.
 2. TM Contractor is required to produce traffic management layout drawings as per Chapter 8 recommendations. These drawings will then be submitted for approval by the design team along with the pricing pack.
 3. TM Contractor is required to provide emergency access to the side roads through out the work.
 4. Emergency vehicular access shall be maintained through the road works section all the time during works. TM Operatives are required at each end of the works to provide safe access to Emergency Services. 9 Nos. TM Operatives are required during this work.
 5. TM contractor is required to erect road closure information signs on site 2 weeks before the start of the work.
 6. TM Contractor is required to provide 'No Parking' cones (to cover 200m length) to stop public parking in the works area.
 7. Work shall be carried out under road closure night time (8pm to 6am)
 8. Temporary traffic signals shall be used on Market Street to provide access to the local residence.
 9. Do not scale from this drawing.
 10. Site verify all dimensions prior to construction
 11. Report all discrepancies to the Drawing Originator immediately
 12. This drawing is to be read in conjunction with all relevant documents and drawings
